

LayClean ST

Concrete Removal Compound

PRODUCT DESCRIPTION: LayClean ST is a chemical water based detergent that is used on construction sites to remove concrete leftovers from surfaces, forms and equipment. Can be used on steel or painted surfaces. Best results are obtained when the concrete is less than 12 hours old.

USES: Suitable for all types of surfaces. Used as a cleanser for wooden and metal forms. Used on walls and floors to remove concrete splashes from tiles, marble, ceramic mosaics, pavers, bricks, etc.

ADVANTAGES: A safe replacement for acid cleaning or solvent based methods having virtually no fumes and being harmless to most surfaces. It is non-flammable and non-staining.

LIMITATIONS: Do not use on plastics.

COMPOSITIONS AND MATERIALS: Special formulation of concrete modifying agents, anionic and non-ionic surface active agents and inert ingredients.

PACKAGING: Packaged in 30 Lit Jerrycan.

TECHNICAL DATA: LayClean ST acts on the principle of cement modification and retardation with the synergy of surface activity of nonionic and anionic detergents to provide effective concrete removal. It is non-flammable and non-hazardous.

USAGE:

Application: Apply with a suitable pouring device, brush, sponge or cloth as conventional cleaners. Let the concrete leftovers soak for about 15 minutes then remove mechanically with brush or scrapper.

Precautions: Prolonged use can be irritating to skin. Avoid contact with eyes. In case of Contact wash thoroughly with water.

Cleaning: Wash spills with water.

Storage Life: One year if stored in cool, dry location.
