

# LaySlip

## Anti-Slip Coating 2 Component

**PRODUCT DESCRIPTION:** LaySlip is a clear surface coating that provides a non-slip surface that is aesthetically acceptable. It works by coating slippery surfaces with a rubbery water resistant polymer that is sparkled with rough grit. LaySlip grit is available in two variants: Fine and Coarse.

**USES:** Non-slip treatment of many natural stone or mineral flooring materials, such as marble, granite, slate or flagstone, and many Cementitious products, such as terrazzo, concrete, manufactured ceramic tile, glazed and unglazed tile, quarry tile, and porcelain that are used in the construction of homes, office buildings, hospitals, nursing homes, hotels, motels, shopping malls, restaurants, schools, pool decks, showers, bathrooms and the like.

**ADVANTAGES:** LaySlip prevents natural or mineral materials, or Cementitious products, from becoming slippery, especially when these materials or products get wet. It does not significantly alter the visual appearance when applied to these surfaces. It is long-lasting on these surfaces. Provides a safe walking surface, thus preventing a hazardous environment.

**PACKAGING:** Packaged in 25 kg kit.

**APPLICABLE STANDARDS:** LaySlip meets Underwriters Laboratories classification for slip resistance of 0.5.

### **TECHNICAL DATA:**

**Surface Preparation:** All surfaces must be clean and free of dust, grease, sealants and foreign matter.

#### **Application:**

1-Apply the liquid component by spraying, mopping or sponging. Preferably, a uniform coating is applied to the surface to be treated.

2- Immediately sprinkle the grit over the coating while it is tacky. Allow 3 hours to dry.

**Coverage:** 15-28 m<sup>2</sup>/liter

**Precautions:** May cause irritation to eyes and skin. Keep away of the reach of children.

**Cleaning:** Wash with water.

**Storage Life:** One year if stored in cool, dry location.

**MAINTENANCE:** LaySlip is maintenance-free and permanent.
